If I had a Second Chance

If I had a second chance, I would tell you that you are special to me.
 If I had a second chance, I would tell you that you are always in my heart.

If I had a second chance, I would tell you that you are somebody.

If I had a second chance, I would sit and listen when you were trying so hard to say that you were hurting.

If I had a second chance, I would say everything is going to be okay.

If I had a second chance, oh if I had a second chance,

I would tell you how much it really meant to me to have you as a

Father-in-law.

If I had a second chance, I would say "I Love You."

Only if I had a second chance!

From this day forward, please don't miss your chance.
